

A Bibliography of Gender and Sexuality,
with a special interest in adolescents

Compiled August 15, 2010

David L. Peavy

The following is a bibliography of selected sources concerning issues of gender and sexuality in general, and in adolescents specifically. The bibliography is organized by geographical regions, with the exception of the first section, which contains references which encompass more than one region. The reader is cautioned that references are listed only once within the bibliography and that some references may contain material classified in other areas. A careful review of references in all categories is therefore suggested. Additions to this listing will be made upon receipt of additional information. If you're aware of a source that is not listed, please send the following information to david.peavy@paxtu.org: author, title, journal name (volume number, issue number & page numbers), place of publication, and publisher.
